NEW CEO AT PANLINK

PanLink AB announces the appointment of **Richard Alm** as new President and CEO, effective immediately.

Richard holds a MSc in Mechanical Engineering from Chalmers. He joins PanLink from a position as CEO at StopDigging. Prior to this Richard has built extensive experience from senior management positions at Cembrit, Flügger, Sanitec and Pergo, typically with significant production exposure and often with multi-site & international scope, which all together will support the continued development of PanLink.

Lars-Gunnar Nilsson joined PanLink as CEO and President of PanLink in 2018 and he has decided to leave PanLink for a new role outside Fairford Group. Lars-Gunnar has been a vital force in developing PanLink into a more digitalised and agile company, both operationally and business wise, during his tenure. Over these years, the company has developed two new market segments – Rail and Electrification – to widen the market potential for further growth and make the company more resilient to market disruptions. We thank Lars-Gunnar for his dedication and leadership and wish him great success in his new endeavors.

We welcome Richard and look forward to supporting him in the next phase of our growth and success.
